Counsel,

I've attached a list of possible exhibits for your convenience.

Mr. Popowski,

I received your e-mail and voicemail regarding your having some questions with respect to exhibits to be offered. Is it possible to address those questions via e-mail? If a phone call is required, I'm happy to set up a call with yourself and Ms. Hammonds, if there's a time that suits you both?

Generally, I can tell you that the Chair will probably consider any requests for Applicant's exhibits to be marked/received at the beginning of its case. I have broken out the tariff and bill-of-lading, as you will see on the list (but left it, as well, in the amended application) for purposes of creating a separate exhibit for posting to DMS that will allow for easy reference by ORS. Also, I've received your Exhibits 1-24, being photos of equipment and facilities. I would suggest those might be offered as a composite exhibit of all those, but it's certainly up to you.

I believe you have participated previously in a hearing wherein it was necessary for you to "share your screen" in order to show various documents or exhibits to the witness and other hearing participants. That is how you will need to do the actual demonstration of any given document. If you have any questions regarding that, specifically, I'd suggest you might want to connect early for the hearing (1:00 p.m. or very shortly thereafter) so that either Jackie or Randy can guide you through that procedure well before the hearing's start.

Please let me know if you have further questions and whether you feel a phone call is necessary to address such. We look forward to seeing you next week!

Best regards,

~Jo
